Preface

The Statistics and Census Sector (SCS) conducted the ninth General Population Census of 2005 during the period 29 March to 25 April 2005 in accordance with law No. 27 for 1963 on Statistics and Census and the Ministerial Resolution No(43) for 2002 concerning conducting the 2005 General Census of Population , Housing and Establishments.

This Census provides a considerable amount of data relating to the number of people present within the country's borders on the night of 20/21 April 2005 and Nationals residing temporarily outside the country. It is worth noting that this Census followed the methodology of full count of the Population during the actual numeration period which took about four weeks. Although this Census is as important as the previous Censuses in providing data about population size and its demographic and socio-economic characteristics, it will, for the first time, provide data on the number of Disabled Persons, types of disability, as well as prevalence of certain diseases in addition to the numbers of regular smokers. This data is an important tool in planning medical care and other social programs. Moreover, and in order to cope with the developments dictated by today's digital world, this Census, and for the first time also, provides data on the size of internet users. This information has a direct bearing on effecting the plans and programs of the Electronic Government which aims at maximum utilization of new technology in provision of services provided by the various ministries and government agencies through the internet.

The SCS is pleased to present in this booklet the preliminary results of the Population Census in the form of indicators depicting the population status in the country. The sector will at a later date publish the final and detailed results of the Census.

Assistant Undersecretary

Basic Concepts and Definitions Used in the Population Census of Kuwait, 2005

The questionnaire of the population census of Kuwait, 2005 included numerous demographic and socio-economic concepts and definitions. Most important are the following:

Household

The concept of Household is primarily based on the arrangements made by the persons to supply themselves with food or other necessities of life. According to this concept, a household is divided into the following:

◆ Private Household

An individual or more sharing a dwelling and other livelihood arrangements, and in many cases those individuals are related to each other by blood or marriage, The household is divided into a Kuwaiti Private Household or a Non-Kuwaiti Private Household.

◆ Kuwaiti Private Household

Any household whose head is Kuwaiti (male or female), the household is considered a private Kuwaiti household. Notwithstanding this definition, a private household is considered Kuwaiti if:

- (a) The head is a non-Kuwaiti female married to a Kuwaiti male even if he was not residing with her during the enumeration period.
- (b) The head is a divorced or widowed Non-Kuwaiti female who has Kuwaiti children enumerated as members of the household.

◆ **Non-Kuwaiti Private Household**

Any household for which the definition of Private Household applies but the definition of Kuwaiti Private Household does not apply i.e. any household whose head is a non-Kuwaiti male or non-Kuwaiti female with no Kuwaiti children residing with her.

◆ **Collective Household**

A group of unrelated persons sharing the same living quarters, but not forming a private household. For the purposes of this census, hotel guests, children homes, guest houses for girls and boys, nurses hostels etc. are considered as Collective Households.

◆ **Head of Household**

A member of the household who is recognized as such by other members. The head could be male or female.

By its very nature, a collective household has no head.

◆ **Nationality**

The nationality refers to the name of the country that a person is related to from a political standpoint regardless of the place of his or her birth or passport and in case this person has more than one nationality, the nationality that bears his/ her residence permit in Kuwait shall be chosen.

Enumeration Scope:

All citizens and Arab and Foreign expatriates who were present within the boundaries of Kuwait at the time of the census (midnight of the 20/21 April 2004) were counted. Following exceptions were made:

1- **Members of Foreign Diplomatic Missions in Kuwait:**

Members of Foreign Diplomatic Missions are not included in the census scope in accordance with international practices.

2- **Members of Kuwait Diplomatic Missions Abroad and Kuwaiti Permanent Residents Abroad:**

These categories are included in the census scope and the data relating to them will be collected through the Ministry of Foreign Affairs.

3- Kuwaiti Individuals residing Temporarily Abroad:

The census scope includes all Kuwaiti individuals who are temporarily residing abroad such as students, businessmen, medical treatment seekers etc.; they were counted within their family members resident in Kuwait.

4- The scope also includes any individual who is customarily residing in the dwelling of the household but was absent during the enumeration and completion of counting for reasons relating to work or temporary residence in other places within the country. Examples include:

Medical staff, Army corp., Police Force, Fishermen, Guards Hospital In-patients, Residents of Elderly Homes, Prison Inmates, Hospital workers, Airport staff etc.

Summary Findings of the Preliminary Results of the Population Census of Kuwait, 2005

The preliminary results of the 2005 population census of Kuwait reported a total population of 2,213,403 , of whom (1,310,067) were males, with 59.2%, and (903,336) females with 40.8% of the total.

The Kuwaiti population was (880,774) persons, (excluding Kuwaitis residing permanently abroad) .With regard to the sex composition, the number of males was (433,977), with 49.3%, and the number of females was (446,797) accounting for 50.7% of the Kuwaiti population.

The Non-Kuwaiti population reached (1,332,629), divided into (876,090) for males and (456,539) for females . The percentage distribution of the Non-Kuwaiti population by sex was 65.7 percent for males , while for females it was 34.3 percent .

It is important to note that the percentage of Kuwaiti population was 30.9% in 1975 census and decreased to 27.7% in 1985 census but rose to 41.5% in 1995 census, then decreased slightly in 2005 census , where it became 39.8% .

The total number of households was (326,231) of which (125,192) were Kuwaiti private households with 38.38% of the total and (181,139) private Non-Kuwaiti households with 55.52% and (19,900) collective households – all non-Kuwaiti - with 6.10 % of the total.

As regard to the population distribution by Governorate, the population of the Capital was (261,013) of whom (137,508) were Kuwaitis accounting for 52.7% of the Governorate's population. In Hawalli, (487,514) of whom (157,069) were Kuwaitis with a percentage of 32.2, while in Ahmadi the population was (393,861) of whom (183,831) were Kuwaitis constituting 46.7% of the Governorate's population. In Al-Jahra, the population was (272,373) of whom Kuwaitis were (97,669) with a percentage of 35.9 whereas in Al-Farwaniya the population reached (622,123) with (166,730) Kuwaitis forming 26.8% of the total. Finally, in Mubarak Al-Kabeer Governorate, the population amounted to (176,519) of whom (137,967) were Kuwaitis constituting 78.2% of the population.

As regards Government employment , there were (1,116,462) employees of whom 833,560 (74.7%) were males, and 282,902 (25.3%) were females,

The employment of Kuwaitis reached 212,570 , (19.0% of the total) of whom (139,251) were males representing 65.5% of the total while females were (73,319) with a share of 34.5% of total Kuwaiti employment.

As for Non-Kuwaiti employees, their number was (903,892) of whom (694,309) were males with a share of 76.8% , (209,583) females accounting for 23.2% of Non-Kuwaiti employment.

The Statistics and Census Sector, Ministry of Planning will, at a later date, present the final and detailed results of the 2005 population census.

Population by Nationality, in the Census Years (1975 – 2005)

Census Years	Nationality			Percentage of Kuwaitis	Percentage of Non- Kuwaitis
	Kuwaiti	Non-Kuwaiti	Total Population		
1975	307755	687082	994837	30.9%	69.1%
1985	470473	1226828	1697301	27.7%	72.3%
1995	653616	921954	1575570	41.5%	58.5%
2005 *	880774 *	1332629	2213403	39.8%	60.2%

* Preliminary Results-Excluding Kuwaitis Residing Permanently Abroad .

Table No. (3)

Sex Ratio by Nationality in the Census Years (1975 – 2005)

Census Years	Sex Ratio *		
	Kuwaiti	Non-Kuwaiti	Total Population
1975	98.9	131.9	120.6
1985	102.5	145.5	131.9
1995	99.7	175.3	137.9
2005	97.1	191.9	145

* Sex Ratio = No. of Males Per 100 Femles

Table No. (4)

Percentage Distribution of the Population by Governorate, Nationality (Kuwaiti and Non-Kuwaiti) According to the Preliminary Results of 2005 Kuwait Population Census

Governorate	Number of Population			Percentage	Percentage of Population by Nationality		
	Kuwaiti*	Non-Kuwaiti	Total Population	(%)	Kuwaiti	Non-Kuwaiti	Total Population
Capital	137508	123505	261013	11.8	52.7	47.3	100.0
Hawalli	157069	330445	487514	22.0	32.2	67.8	100.0
